

Isostatic press GFZ 3

Highlights

- Low energy consumption
- Easy to program
- Adjustment of article layer thickness during operation
- Use of flashless tool
- All tool systems possible
- Reduced tool wear

Characteristics

- Static precompaction
- Reproducible product quality
- Short set-up times
- Simultaneous production of different articles
- Automatic closing force tracking

Type of press GFZ 3

##ip_pressenkraft##:	1
Number of tools:	3
Closing force:	7.000 kN
Isostatic pressure:	300 bar
* round	480 mm
* square	410 x 410 mm
* oval	550 x 430 mm
Green height:	275 mm
Output:	max. 150-200 pcs./h

Technologies

- Flashless tool
